

Pursuant to its growth strategies aligned with the CareforNext Sustainability Strategy developed in line with the United Nations Sustainable Development Goals, Şişecam aims to offer innovative, easy-to-use products and services that meet universal quality standards with an approach that respects people and nature, and to create a value chain consisting of business partners with a high awareness of energy efficiency, waste management and sustainability issues.

For its customers, employees, suppliers and all other stakeholders, Şişecam prioritizes customer focus to establish trust, become a symbol of continuity and generate added value.

The Group acts in compliance with international and local legislation and ethical values during the execution of its supply chain activities, and expects all its stakeholders to operate in compliance with the law and the "Şişecam Group Code of Conduct". The Group acts in compliance with the legislation applicable to the relationship between the parties regarding the protection of personal data and expects its stakeholders to act in accordance with their obligations as both data controller and data processor in this regard.

Şişecam acknowledges that the quality of its products and services is greatly affected by its suppliers and business partners and adopts fair, honest, transparent, impartial, respectful and non-competitive behaviors in its supply chain activities and evaluates all national and global supply alternatives. It is committed to the principle that its suppliers act in compliance with the "Supplier Code of Conduct".

Şişecam conducts its procurement activities in the most efficient manner by respecting the short- and long-term interests of the Group and its suppliers. In the selection of material and service providers, it evaluates factors such as financial risk, capacity, quality, delivery time and effective procurement processes by taking into account the total cost of procurement. It keeps track of and audits the performance of its suppliers and prioritizes their development through intensive cooperation with them.

While carrying out its supply chain processes, Şişecam acts in compliance with national and international legal regulations based on the principles of employment conditions that prevent child labor and discrimination, the primacy of human rights, inclusiveness, diversity, equality and unconditional establishment of information security and the registration, permission and restriction of chemicals. Şişecam highly encourages both its suppliers and employees to report any actual or potential violations.

Şişecam embraces continuous improvement principles by leveraging digital transformation opportunities at the highest level, managing its resources such as materials, information, technology, funds, labor force, etc. in its supply chain network effectively and holistically, and streamlining its processes.
